

## Frills and Flounces

*A small selection of available Headbands and Lace Bonnets*

A girl has to have a hobby – and for me it's getting crafty with bits of lace, ribbon and bows! As a result, I have an absolutely massive selection of unique handmade accessories for baby girls.

If your baby is a 'girly girl' and if you love anything frilly or lacy then I have the perfect accessory ready for you to use.

Whether you have a particular colour scheme in mind for your photoshoot or a favourite outfit that you want to accessorise, I'm sure to have a headband in my collection that will match. They range from the plain and simple to the highly elaborate, so there's bound to be something that works for you.

For even more frills and 'girliness' I also have delicate handmade lace bonnets and tutus available for your use.

Any of these items can be used on their own, paired up with other items from my dressing up box or used alongside props to create a fully themed set.

Headbands are sized to fit from newborn all the way up to 5/6 years old  
Tutus and lace bonnets will fit from newborn to 2/3 years old.

*Tutus from the pastel range  
(other colour schemes also available)*

If you'd like to make use of any of these accessories during your session, please let me know at the planning stage so that I can ensure everything is prepared and if you're having your session at home get them ready to include in my prop bag!

A very small selection of all available accessories is included on these pages and I'm constantly adding to the collection. Please let me know your preferences on style and colour and I'll pick out something appropriate for you. Of course, if you come to me for your photoshoot you can view the full range while you're in the studio.
