

Themed Costumes

❖ For Newborns and Babies

Bunny outfit – pink or blue

Hat and matching pants

I have a wide variety of costumes available for use during your session. They can be used on their own to give a twist to a plain simple photo, or accessorised with coloured rugs, fabrics and other props to build up a themed set.

Most of my baby costumes are a suitable size for newborns up to approximately 1 year old and if necessary any excess fabric can always be tucked out of sight once your baby is in position.

Being mindful of babies' sensitive skin, all costumes are made from soft fabric and have plenty of stretch so there's nothing tight, stiff or scratchy to cause any discomfort.

If you'd like to make use of any costumes during your session, please let me know at the planning stage so that I can ensure everything is freshly washed and if you're having your session at home get them ready to include in my prop bag!

I'd recommend including no more than one or two during a single session because this is usually as much disruption as babies will tolerate.

A selection of the available costumes is included on these pages but I'm adding to my collection all the time. Please let me know your preferences on style and colour so that I can pick out something appropriate for you. Of course, if you come to me for your photoshoot you can view the full range while you're in the studio.

Ladybird

Caterpillar

Crowns – pink or blue available

Hat and matching pants sets
